Food Grease

DESCRIPTION:

SYG-990/ ALFG Grease is high performance extreme pressure grease specially blended for the lubrication of machinery used in food and beverage processing and packaging industry. Registered by NSF (Class H1) for use where there is potential for incidental contact with food. Product contains only substances permitted under US 21 CFR 178.3570, 178.3620 and 182 for use in lubricants with incidental food contact. They do not contain any natural products derived from animals, nuts or genetically modified organisms (GMOs).

BENEFITS OF FOOD GREASE

Excellent in extreme pressure

Excellent water resistance

Neutral odor and taste

Excellent oxidation & mechanical stability

Excellent adhesive properties

Enclosed industrial gearbox

Automatic, Centralized lubrication systems

Joints, linkages and slides

Suitable for wide ranges of applications including Bearings

TECHNICAL SPECIFICATION

SR NO.	PROPERTIES	VALUES
1	NLGI GRADE	2
2	Appearance	Translucent
3	Thickener Type	Aluminum Complex
4	Base Oil Type	SYNTHETIC PAO
5	Penetration, worked 60X	285
6	Pumpability	Fair
7	Temperature range	-50 to 250 °C
