## High Temperature High Performance Grease

### DESCRIPTION:

HTHP Grease can be applied with complete confidence in automotive and industrial plain and anti-friction bearings, in hot or cold environments, under wet or dry conditions, and with light or heavy loads. Because of its wide range of application possibilities, coupled with an ash less polyurea thickener and special extreme pressure additives system BSG – HT – HP GREASE is High- Temp Multi-Purpose E.P. Grease.

### ❖ Technical Specification of High Temperature and High-Performance Grease.

SPECIFICATION	VALUES
NLGI Grade	2
Appearance/Structure	BLUE
Penetration change after 60Strokes, ASTM D217	265-295
Drop Point, °C, ASTM D2265, Min	242
Copper Strip Corrosion, ASTM D4048	1a
4-Ball Weld Load, Kg, min. ASTM D 2596	250
